

SPECIAL STORY TIME!

The Earth's Hydrosphere: From Streams to Rivers to the Ocean

Tuesday, Nov. 11 • 10:15-11am
IN THE PROGRAM ROOM • FOR AGES 3-5

Join Addison Buffalow as she explains the importance of keeping the world's water clean. Kids will follow water from streams and rivers to the ocean, and learn how litter can travel in the same way. Kids will also learn how keeping the oceans clean is important for the animals that call it home.

Miss Addy will read stories, sing a song, and play a short video so kids can learn how they can help locally.

**Small actions can
have big impacts!**
